» SUMMARY

Design-driven JavaScript developer with 1-2 years experience building websites and web applications. My favorite JavaScript framework is React! Past nonprofit experience in the museum field has developed me into an active team player who enjoys exploring out-of-the-box solutions. Seeking to join a strategic thinking company that values best practices and encourages their employees to always be learning.

» EXPERIENCE

General Assembly New York, NY

Engineer Fellow • Web Development Immersive • Mar. 2018 to June 2018

- Developed skills in JavaScript (creating and consuming RESTful API's, AJAX, jQuery)
